“

Valmierians are known for being as active and full of energy as the River Gauja. The city's athletic success can be attributed to a number of factors: the city's fresh air, nature areas, high-quality training conditions suitable for a variety of disciplines, talented and driven athletes, dedicated coaches. Our sporting traditions, the achievements of our athletes and the commitment of our coaches have put Valmiera's name on the map, both within Latvia and far beyond its borders.

”
